火の用心は地域の願い

1月31日(土)、3日間続いた学校公開の結びは、たくさんの保護者の方に見守られながら防災体験授業を行いました。三中吹奏楽部金管隊のファンファーレを受け、サイレンの音も高らかに日野市消防団第七分団の精鋭の皆さんのが入場!

全校生徒が集合し、消防団の皆さんのが指導の下、代表生徒たちが放水技術を体験しました。
「水圧がすごい」
「思ったよりもしっかり持てた」と感想は様々です。百聞は一見に如かず、ですね。

悲しいことにさまざまな災害によって、人々の生活は危機にさらされます。今冬は各地で長期にわたる山火事も発生しています。今日の学びが明日の防災に活かされますように!

HINO // /
Try!

Fire Safety is a Community Wish

On Saturday, January 31st, the three-day open school concluded with a disaster prevention hands-on class watched by many parents. Accompanied by a fanfare from the *Sanchu* Brass Band and a siren blaring, the elite members of the Hino City Fire Department's 7th Division entered the school!

The entire student body gathered, and under the guidance of the fire department members, representative students tried their hand at water-spraying techniques. Impressions varied, with some saying, "The water pressure was incredible" and others saying, "I was able to hold on tighter than I thought." Seeing is believing, after all.

Sadly, various disasters put people's lives at risk. This winter, long-lasting wildfires have occurred in various areas. May what we learned today be put to good use in disaster prevention tomorrow!
